

**CME INFORMATION**  
**SCOTTSDALE INTERVENTIONAL FORUM**  
**SCOTTSDALE, AZ**  
**MARCH 15-18, 2023**

**Target Audience**

The 2023 Scottsdale Interventional Forum has been designed to meet the educational needs of interventional and general cardiologists, cardiology fellows, cardiovascular surgeons and other vascular specialists, interventional radiologists, cath lab nurses and technicians as well as other medical professionals who have an interest in heart and vascular medicine.

**Educational Goal**

The purpose of this activity is to provide an in-depth review of the most relevant advances in the treatment of heart and vascular disease.

**Learning Objectives**

- Explain the role of mechanical circulatory support in patients undergoing complex coronary intervention.
- Discuss novel stent platforms and the regulatory pathway to FDA approval.
- Describe newer methodologies for plaque modification in coronary disease management.
- Identify the emerging role of catheter-based revascularization in complex lesion subsets including unprotected left main coronary disease and multi vessel coronary artery disease.
- Explain the relative merits of surgical vs. percutaneous revascularization in diabetic patients with complex coronary anatomy.

**Accreditation**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of *CMEsolutions* and Gaffney Events. The *CMEsolutions* is accredited by the ACCME to provide continuing medical education for physicians.
